**RECOMMENDATION LETTER**

This letter is issued by the Main Department for Control over the Circulation of Excise and Labeled Goods of the State Tax Service under the Ministry of Economy of the Republic of Azerbaijan to confirm the following:

- TT Technologies LLC is the duly contracted national operator of the Excise Goods Track & Trace System (built by Smart One Pos Solutions) of the Republic of Azerbaijan.
- The system covers the excisable product categories of alcoholic beverages, beer, energy drinks, tobacco and tobacco products.
- The system has been implemented nationwide, achieving end-to-end connectivity of the supply chain, by registering all producers, importers, wholesale and distributors, while retail stores are now being registered and onboarded into the system.
- TT Technologies LLC is responsible for system operation, maintenance, support, and ongoing technical administration.
- The State Tax Service confirms that TT Technologies LLC has been performing all contractual obligations, including deployment, commissioning, and continuous operation of the Track & Trace system.

Based on the performance to date, the State Tax Service of the Republic of Azerbaijan confirms that TT Technologies LLC is fulfilling its current obligations related to the implementation and
